Over the last 39 years, EICMA has grown in vintage and prestige and is now famed for its excellence in rendering services in matters of Government Legislations, Testing Facilities, Seminars; a well posted Web Site for effective communication and exemplary fraternity & fellowship amongst members.

This year, all the Members of the Governing Body, Managing Committee & Sub Committees are committed to carry forward the Associations activities and make every endeavor to improve its facilities, services and programs.

My tenure as President would be incomplete without your participation, guidance, valuable suggestions and constructive criticism. So please feel free to give your inputs and let us together take EICMA to newer heights.

Seasons' Greetings & Warm Wishes.

Yours Sincerely
